## Merits of Normal Delivery over Caesarean Section

Normal (vaginal) delivery is a natural process and offers several advantages when medically feasible.

### Benefits include:

- ❖ Less post-delivery discomfort and shorter recovery period
- ❖ Avoids risks associated with surgery and anesthesia
- ❖ Faster recovery and early mobilization
- ❖ Shorter hospital stay
- ❖ Lower risk of respiratory problems in the newborn
- ❖ Promotes better initiation of breastfeeding
- ❖ Establishes a healthier gut microbiome in the baby
- ❖ Safer for future pregnancies.
- ❖ Overall benefits for both mother and baby.
